

BABY WATCH

Security for Maternity units

- Immediate Alarm
- Simple to Operate
- Effective Security
- Peace of Mind

Features

- **Unique self contained cot alarm**
Powerful battery-operated alarm linked to a padded Pressure Mattress placed in the babys crib.
- **Simple security key operation**
Baby can *only* be removed by its mother or a member of midwifery staff.
- **Immediate warning**
Alarm sounds the instant the baby is removed from the cot.
- **Easy to maintain**
Durable, waterproof, easy to clean, full maintenance back-up.
- **Proven in use**
Now used in over 40 Maternity units throughout the U.K.

Benefits

- Peace of mind for mothers and staff on maternity wards.
- Mothers are in control of the security of their own babies; security becomes a partnership between mothers and midwives.
- No interference with existing electronic systems; nothing is attached to the baby.
